Page 2/5630

iii) Fit for the Future – the General Manager informed Council that he attended a further workshop at Dubbo recently. He said that Council resolved to complete Template 2 Council Improvement Proposed Program, however further information has been given regarding Template 3, in that there will no longer be statutory differences and it would appear that rural councils will be classified councils in their own right. The General Manager informed Council that the CEO of the OLG had indicated he would put out information confirming that if a council completed Template 3, being a rural council template, the OLG would accept the scale and capacity of those councils and require an improvement plan only. It would appear that there is now no “model” for a rural council as was a recommendation of the final report of the Independent Panel and Councils will be able to remain independent entities. Mr Warren said it would appear from what has been said that the structure of councils will not change, they will be able to choose the number of councillors and meetings.

Cr Burnheim asked about Joint Organisations – the General Manager said it is mandatory for every council outside the metropolitan area to be a member of a JO at a regional level. In response to a further question, Mr Warren said that the Western Division has decided to consider a Far Western Joint Organisation of Councils in the hope of keeping current local council structures in place.

iv) Vandalism – Cr Schieb asked whether all incidents of vandalism on Council’s property is reported to police. The Director of Corporate and Urban Services said reports are always passed on to the police. He said that following the last lot, juveniles have been charged and will appear under the Young Offenders Act. Council noted that CCTV cameras have been installed in Macdonald Park, along with additional lighting.

v) Aerodrome - Aero Club Hangar – it was noted that no action has been taken by the Aero Club to date, noting that prior to any work being commenced a development application should be submitted and approved.

1339 RESOLVED on the motion of Crs. Keady and Schieb that the above items be noted.

8.0 RESOLUTION BOOK UPDATE

1340 RESOLVED on the motion of Crs. Keady and Schieb that the Resolution Book Update be received and noted.

Business Arising from Resolution Book

i) Landfill Scavenging Rights – Cr Schieb suggested that items which are re-useable be stored separately at the landfill site for sale. Cr Webb said this practice is already in place – the items are stored in a shed on site and sold as second hand items – the General Manager noting that the contractor has exclusive scavenging rights.

ii) Quambone Playground – Cr Cullen asked why a report has come to Council on this matter, when it has already been decided to go ahead with the playground equipment. The Mayor said the report contained details of various options of equipment and Council is required to select the one it believes will be most beneficial, within the \$50,000 limit.

1341 RESOLVED on the motion of Crs Keady and Schieb that the above matters be noted.

**10.1 COONAMBLE RACECOURSE & RECREATION RESERVE TRUST
W1-6(44913)**

1344 RESOLVED on the motion of Crs Keady and Cullen that Council advise the Coonamble Racecourse & Recreation Reserve Trust that, in principle, it is agreeable to investigate the opportunity for the Trust to pump water from Council's bore at the corner of Wingadee and Conimbia Streets, noting it will be at no cost to Council and subject to a technical analysis of water supply and impact on town water requirements.

SUBSIDISED DE-SEXING PROGRAM – COMPANION ANIMALS

At this juncture, Mrs Kylie Parry was in attendance to address Council on the proposed subsidised de-sexing program for companion animals. Councillors noted this matter was included in the General Manager's report (Item 11.5).

Mrs Parry said she represented North West Vets (formerly Coonamble Veterinary Clinic) and gave a history of previous de-sexing programs carried out, the last one being six years ago. It was noted that previously the RSPCA was involved, however funding from that source was no longer available. She said her submission to Council sought \$5,000 to carry out the program in April and October and that it was intended to target those in the low income bracket (must be pensioner or health care card holder). She also asked Council to provide microchips – it was noted the chips are \$7.00 each.

It was noted that stray dogs are still a problem and unwanted litters of pups are often taken to the vets to be destroyed. The Manager of Environmental Services said that the numbers of dogs wandering streets has increased.

The Mayor thanked Mrs Parry and she left the meeting at 9.50 a.m.

Item 10.1 – Jockey Club/Golf Club Water – (continued)

Councillors referred to the earlier intention that the Jockey Club was negotiating to get its own bore at the Racecourse Reserve and that both it and the Golf Club would have access to water.

The Mayor said that when this was further investigated it was found that to get sufficient water the bore would have to be 800 metres deep and the financial commitment could not be met. He said representatives of the Clubs have discussed the issue with the Minister for Water and will be applying for grant funding of \$150,000.

Cr Karanouh said that if the proposal to pump from Council's bore goes ahead, the Clubs will have their own pump and meter and will be licensed to take water under their own licence. He pointed out, however, that this is the first step of the process and should there be any negative impact on Council's ability to deliver town water, the project will not go ahead.

10.2 COONAMBLE GOLF CLUB D7

1345 RESOLVED on the motion of Crs. Keady and Burnheim that Council agree to allocate \$1,000 to the Coonamble Golf Club as a contribution towards its water use for this financial year.

The Mayor suggested Council write to the EPA advising it wishes to be proactive in recycling of waste, but did not have the funds, AND request the EPA to provide financial assistance.

The Director of Engineering Services said the contract for waste collection would shortly be reviewed and this is something that may be able to be incorporated in the revised document.
