**MEDIA RELEASE**

**IMPACTS OF CURRENT RAINFALL**

Coonamble Shire Council advises all drivers in the area to use caution if using the highway and other sealed roads, especially at flooded causeways and at other locations where water is crossing the road or pooling on it.

All unsealed roads throughout the Local Government Area are closed to all traffic.

While rain is expected to ease from Friday onwards, water will still drain across roads throughout the coming week, and drivers should continue to anticipate water across roads at causeways.

Coonamble Waste Management Facility and all sports grounds throughout the area are also closed.

Council will issue updates as conditions change.
