

WATER SERVICES POLICY

Council adopted the following policy in relation to provision of a water service:

1. All new development be required to install a stopcock on the property side of Council's water meter (subject to inspection prior to occupation)
2. Any requests for repairs/modification to Council's stopcock for the purpose of conducting works within private property be responded to as private works and charged to the ratepayer **except for the first call which is free of charge.**
3. In the event of a request of the type details in Item 2 above, the ratepayer be instructed to install a stopcock on their side of the meter in accordance with Section 152 of the Local Government Regulation.
4. In the event that the ratepayer does not comply with the instruction detailed in Item 3 above, Council organise the same as private work and charge the cost to the ratepayer.

Submitted to Council: 13 September 2006 – Minute No. 5676
Public Exhibition to: 1 November 2006
Adopted: 8 November 2006 – Minute No. 5802
