1.0 GENERAL NOTES

- All sample images are indicative only.
- Refer to product trade literature for more accurate representations.
- Refer also Design Plans for additional details and setouts.
- For fixtures that are required to be in accordance with AS1428.1, their accurate setout and installation shall be the responsibility of the Builder.
- Provide coloured cold water and warm water indicator buttons to all taps.
- The Builder/contractor shall cross check all carpet and vinyl selections, ensure that they meet the requirements of Spec C1.10 of the BCA (fire hazard properties) and provide a compliance certificate upon completion.

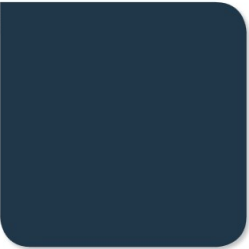

The Builder shall cross check and confirm numbers of all items.
